How to Ship Ammunition to Support Our Troops®

- Do not use the Post Office or FedEx.
- **Use basic UPS ground**

It is easiest ship ammunition by basic UPS ground. (FedEx has no easy to find understandable instructions, so we do not recommend them for this.) UPS has a specific, clearly presented instruction page just for ammunition – good job UPS!

Personally give your package to UPS

- Tell them it contains ammunition.
- Take it to the main UPS center in your town, or if you have a commercial a UPS Scheduled Pickup Account you can use that.
 - No UPS Drop Boxes
 - No UPS Store®, any third party retailer, or UPS Access Point™ location.
 - No pickup via a UPS Online label (unless you have a routine commercial account)
 - You can print your label online and take it to the main UPS center in your town. You just can't have it picked up.

Box snugly.

- Pack ammunition inside boxes, partitioned within a snugly fitting boxes, properly cushioned.
- Do it so that it is protected from accidental initiation during transit.
- Do it so it does not open, spill, or rattle around during transit.
- Maximum weight per box 66 lbs.

Label the package exterior.

- Print and affix your choice of the following labels to the outside of the box.
